Ramclean

SMART PURGING AGENTS

FAST AND EFFECTIVE

RAMCLEAN 101/204

Wide Working Temperature: 150°C – 250°C

Wide variety: PP, PE, PA, PBT, PC/PBT,
PC/ABS, ASA/PBT, PC/ASA, EVOH, colored PC

RAMCLEAN 206 CLEAR

Wide Working Temperature: 230°C – 320°C

Transparent materials: PC, Acrylics

RAMCLEAN 500

Low Working Temperature: 160°C-230°C

PVC & ABS; other materials

RAMCLEAN 600

Working Temperatures: 120°C -280°C

Monofilm and Film Layers/Tie Layers

RAMCLEAN 800

High Working Temperatures: 230°C-360°C

PA, PC, PS, EVOH, ULTEM, PEX, PPO, PPS

Polysulfane and more

Ramclean

SMART PURGING AGENTS

COLOR AND MATERIAL CHANGES

RAMCLEAN is a new line of products,
Non-Corrosive, Non-Abrasive and Non-Toxic

Designed to have solutions for cleaning any type of materials.

Based on a proprietary formulation using ingredients that are
REACH and **FDA** compliant.

Safe to use for operators and machinery.

Compatible with almost any processing technology:

Injection Molding

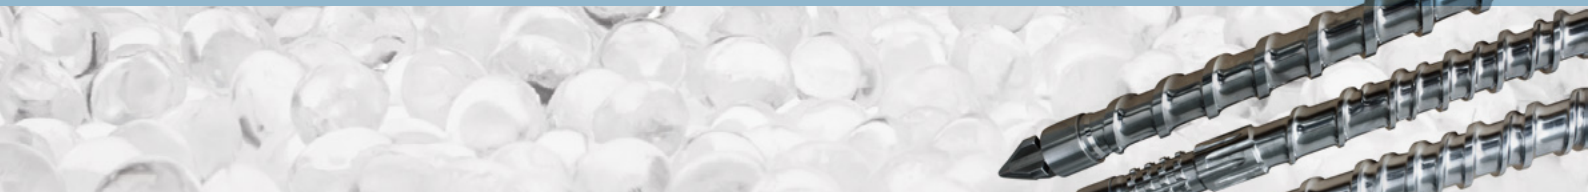

(Cold Runner/Conventional, Hot Runner Systems)

Extrusion

Compounding

Blow Molding

ECO FRIENDLY

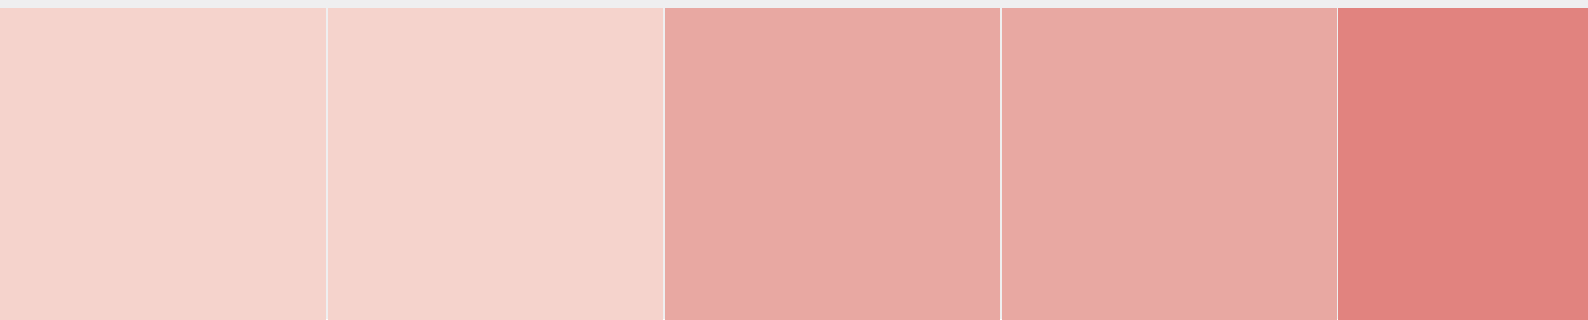

Proprietary Formula-Triple Action

- physical agents (nonabrasive scrubbing ingredients break up and remove degraded deposits: push, scrub & pressure).
- chemical (react with the resin - breaks down polymer chains to lower viscosity and ease purging).
- heat-activated foaming agent to clean hard-to-reach negative flow areas.

Easy to use - “AS IS”- no mixing or any further preparation is required.

It is **safe to use and handle** and doesn't damage machinery after years of use providing continuous positive results.

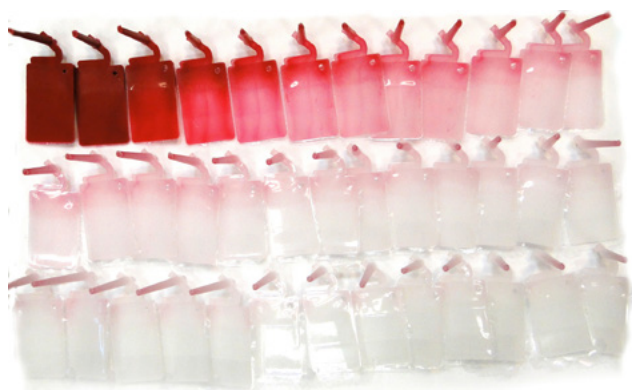

BIG SAVINGS

Cleaning PP, GF Dark Red, Organic Pigments

Using Ramclean 204
(210g, 10-15mm)

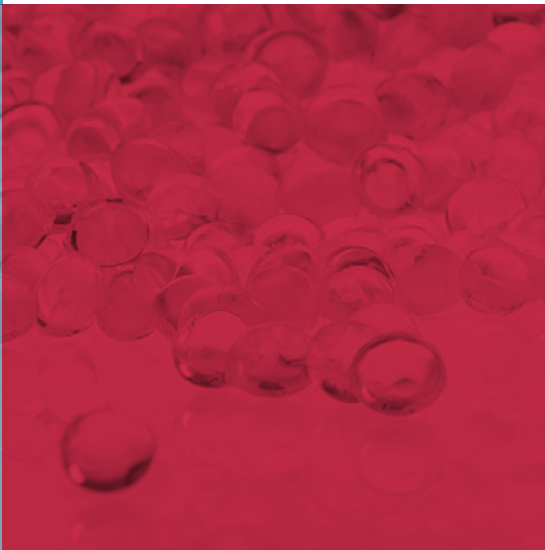

Using Unfilled PP
(650g, 25-30mm)
